Personal Statement

Motivated and adaptable graduate with a Level 6 qualification in Business Management (Finance) and a strong passion for software development. I have completed a software development bootcamp, learning full-stack technologies including JavaScript, Node.js, React and Express, with hands-on experience using Postman and Insomnia for API testing. I've also been working with MongoDB to expand my database skills.

I focus on developing practical skills through hands-on projects. I enjoy creating things that are not only technically solid but also intuitive and useful for users. I'm looking for a chance to be part of a team where I can keep learning, get experience on real projects, and become a well-rounded software developer.

Skills

- **Languages & Frameworks:** HTML, CSS, JavaScript, Next.js, React
- **Databases:** MongoDB, Mongoose
- **Tools & Platforms:** Postman, Insomnia, Git & GitHub, Visual Studio Code
- **Concepts:** RESTful APIs, DOM Manipulation, Responsive Design, CRUD Operations
- **Productivity Tools:** Microsoft Office (Word, Excel, PowerPoint), Google Suite
- **Soft Skills:** Effective communicator, team player, organized, self-motivated, problem-solver

---

Projects

Weather Forecast App

GitHub: https://github.com/NicoletaGheorghe/my-weather-forecast **| Live Demo:** https://my-weather-forecast-zeta.vercel.app/

Built with Next.js and TailwindCSS, deployed on Vercel. Integrated the Open-Meteo API to provide 7-day forecasts and hourly temperature data. Implemented dynamic UI features such as background color changes based on real-time weather codes and a city search functionality for global coverage.

Caesar Cipher Encryption Tool

GitHub: https://github.com/NicoletaGheorghe/Caesar-Cipher **| Live Demo:** https://nicoletagheorghe.github.io/Caesar-Cipher/

Built a Caesar Cipher tool in JavaScript using Test-Driven Development. Wrote unit tests before implementation to ensure reliable, modular code. Handled upper/lowercase and special characters while strengthening skills in string manipulation and control flow.

Candles Website

GitHub: https://github.com/NicoletaGheorghe/Candles-website **| Live Demo:** https://nicoletagheorghe.github.io/Candles-website/

Created a simple, responsive website to showcase candle products using only HTML and CSS. Focused on building a clean, user-friendly design. Used media queries to ensure a good experience across all screen sizes.

Education

Software Development Skills Bootcamp (Full-Stack Web Development)

The Developer Academy | April 2025 – June 2025

An intensive, full-time 12-week program focused on modern web development**.**

- Learned front-end development using HTML, CSS, and JavaScript, with a strong emphasis on DOM manipulation, UX, and accessibility.
- Practiced Object-Oriented Programming (OOP), Test-Driven Development (TDD), and Agile methodologies.
- Built and tested RESTful APIs using Node.js, Express, and MongoDB (Mongoose).
- Worked on collaborative group projects, applying version control with Git and using Agile methodologies.

Bachelor's degree in business management (Finance)

Regent College in partnership with University of Bolton | 2022

- Gained foundational knowledge in business processes, financial management, and organizational skills.
- Developed analytical thinking through coursework, with a focus on budgeting, financial statements, and business strategy.

Work experience

- ### Cleaner

  Various Companies | 1 November 2022 – Present

  - Performed cleaning duties in various environments, including offices and public spaces.
  - Ensured cleanliness and organization by dusting, vacuuming and sanitizing surfaces, ensuring high hygiene standards.
  - Managed cleaning supplies and equipment, ensuring safe handling and proper storage.
  - Worked independently and as part of a team to meet client needs, maintaining a safe and tidy environment.
  - Followed health and safety guidelines to ensure a safe working environment for both staff and visitors.

- ### Retail Assistant

  TK Maxx | 15 June 2019 – 20 September 2021

  - Provided excellent customer service by assisting customers with product inquiries and processing transactions efficiently on the tills.
  - Maintained the tidiness of the shop floor, ensuring that products were neatly displayed and easily accessible for customers.
  - Organized and ensured the cleanliness of changing rooms and store displays, creating a positive shopping environment.
  - Worked collaboratively with team members to ensure smooth store operations during busy periods.

- ### Packer

  The Recruitment Shop Ltd | 24 May 2018 – 23 September 2018

- Packaged products efficiently and accurately according to company guidelines, ensuring products were prepared for shipment with minimal errors.
- Checked the quality and condition of products before packing, ensuring compliance with company standards.
- Worked collaboratively with the team to meet production and shipping deadlines.
- Ensured proper labelling and documentation for shipments to guarantee timely delivery and inventory accuracy.
- Maintained a clean and safe work environment, adhering to health and safety guidelines.
